TIMEXPERT LIFT(IN)

A NEW ERA IN LIFTING SKINCARE

TIMEXPERT LIFT(IN) is an anti-ageing achievement of the Germaine de Capuccini laboratories. The secret? **V-Matrix**, a high-performance complex programmed to work on the root of the problem. The lifting is generated inside to become visible outside.

A new era in the search for firmness that, emulating the surgical lifting, provides a global result from Three Vectors of Rejuvenation.

All the products have been dermatologist-tested.
